

IN THE SPECIFICATION:

Please revise the last full paragraph on page 12 to read as follows:

The vehicle-mounted apparatus according to this embodiment is a box-shaped apparatus having a controlling section for controlling each unit described above, and a main panel 1 mounted vertically on the front surface 3 of a dashboard facing toward the user is shown in Fig. 1. Fig. 8 is a front view of the main panel 1. As shown in these figures, this embodiment comprises a main display (corresponding to the first display) D1 provided in the main panel 1 and a sub panel 2 mounted on the main panel.
